Custom Polyclonal & Monoclonal Antibodies

- Anti-Proteins
- Anti-Peptides
- Anti-Post-Translational Modifications
- Anti-Haptens

Antibody Purification

Antibody & Biomolecule Labelling

Peptide Synthesis

Products

Primary Antibodies - Fields of Research

- Biomarkers
- Cancer
- Cell Biology
- Chromatin
- Ion Channels
- Microbiology
- Neurobiology
- Nuclear Signalling
- Post-Translational Modifications
- Signalling Intermediates
- Toxins
- Virology ...

Primary Antibodies - Common Use

- Isotype Controls
- Loading Controls
- Anti-Tag Antibodies

Secondary Antibodies

- Anti-Mouse
- Anti-Rabbit
- Conjugated to Enzymes
- Conjugated to Fluorescent Dyes

Other Products

- Chemiluminescent Reagent Kit (Covalight®)
- Immunoaffinity Columns
- ELISA Plates
- Transglutaminase Detection Kits ...
